1. Problem Identification

Problem Statement

The Harshi Salon, which is our product owner, often had difficulties with managing customer details and appointments. The reason is all the appointments and payments are done by manually (Using a notebook). This causes appointment clashes, time wastage, especially during busy seasons, double bookings and difficulties in managing customer details. Owner struggle to know how good their service is and customer find it difficult to provide rating and feedback since there is no proper feedback system. Additionally, the owner has found it difficult to improve the business because of the misinformation and human errors which happen during monthly report generating.

Why is this problem important?

- Harshi salon manages their appointments and customer details manually which has led to business fall.
- Customers often miss their appointment times due to lack of proper notification system.
- The Salon tends to lose appointments during busy periods, since customers find it difficult to make appointments.
- A considerable time wastage to both staff and customers happens when selecting services (Hairstyles, nail arts, make-up looks), because there's no proper system to decide them in advance.

2. Stakeholder Identification

Stakeholder	Type (Primary / Secondary / Tertiary)	Interest / Concern
Customer	Primary	To get services
Owner / Admin	Primary	All the salon functions are managed well .
Receptionist	Primary	Easy access to customer details and avoid double bookings.
Salon Staff	Primary	Efficiently manage daily works.
Suppliers	Secondary	Can get an idea about the products by analyzing the feedbacks in the system

3. Product Vision Statement

For users of Harshi Ladies Salon,
Who has problems using manual methods,
The product Web-based Salon Management System,
Provides online appointment and booking system, and overall customer satisfaction by saving time.

4. Epics

We have divided our Salon Management System into six epics:

Epic ID	Epic Description
E01	User Management
E02	Service Management
E03	Package Management
E04	Appointment and Payment Management
E05	Feedback and Rating System
E06	Style Recommendation System

5. User Stories

Epic ID	User Story ID	User Story	Stakeholder
E01	UM1	As a customer, I want to create an account using my basic details so that I can book and manage appointments.	Customer
E01	UM2	As a Customer, I want to log in to the system using my credentials, so that I can access features relevant to my role.	Customer
E01	UM3	As a customer, I want to view my profile details, so that I can verify my personal information.	Customer
E01	UM4	As a customer, I want to update my personal details so that my information stays accurate.	Customer
E01	UM5	As a customer, I want to reset my password if I forget it, so that I can regain access to my account securely.	Customer
E01	UM6	As the owner, I want to create staff and receptionist accounts so that employees can use the system.	Owner

E01	UM7	As the Owner, I want to log in to the system using my credentials, so	Owner
-----	-----	---	-------

		that I can access administrative features	
E01	UM8	As the owner, I want to assign roles (staff, receptionist) to users so that access is controlled properly.	Owner
E01	UM9	As the owner, I want to view a list of all users so that I can manage the saloon workforce and customers.	Owner
E01	UM10	As the owner, I want to activate or deactivate user accounts so that I can control system access when staff join or leave.	Owner
E01	UM11	As the owner, I want each role to access only permitted features so that sensitive data is protected.	Owner
E01	UM12	As the Owner, I want to search users by name or role, so that I can quickly find specific accounts.	Owner

E01	UM13	As the owner, I want to view basic user activity status (active/inactive), so that I can monitor system usage.	Owner
E01	UM14	As the owner, I want to log out securely, so that my account remains protected after use.	Owner

E01	UM15	As the Receptionist, I want to log in to the system using my credentials, so that I can access features relevant to my role.	Receptionist
E01	UM16	As a Receptionist, I want to view my profile details, so that I can verify my personal information.	Receptionist
E01	UM17	As a Receptionist, I want to update my profile information so that my contact and personal details remain accurate.	Receptionist
E01	UM18	As a receptionist, I want to view staff roles and availability details, so that I can assist customers efficiently.	Receptionist
E01	UM19	As a Receptionist, I want to log out securely, so that my account remains protected after use.	Receptionist

E01	UM20	As a staff member, I want to log in to the system using my credentials, so that I can access features relevant to my role.	Staff Member
E01	UM21	As a staff member, I want to view my profile details, so that I can verify my personal information.	Staff Member

E01	UM22	As a staff member, I want to update my profile information, so that my contact and personal details remain accurate.	Staff Member
E01	UM23	As a staff member, I want to change my password, so that I can improve account security.	Staff Member
E01	UM24	As a staff member, I want to log out securely, so that my account remains protected after use.	Staff Member

E02	SM1	As a customer, I want to see what service categories are available, so that I can have a clear idea on what to book	Customer
E02	SM2	As the customer, I want to view prices, description, and available styles the salon provides, so that I don't need to ask manually about the service details	Customer
E02	SM3	As the owner, I want to add new services we are introducing, so that customers can know about new trends and services we offer.	Owner
E02	SM4	As the owner, I want to update existing details about the services we	Owner

		have, so that they are up to date.	
E02	SM5	As the owner, I want to delete services from the system, so that clients will not get disappointed.	Owner
E02	SM6	As a staff member, I want to list all the services we provide in each category so that customers can choose the best option for their needs.	Staff member

E02	SM7	As a customer, I want to add my selected services to a cart, so that it would be easy for me to book my appointment.	Customer
E02	SM8	As the owner, I want to create new service categories, so that I can introduce new services easily.	Owner
E02	SM9	As the owner, I want to update service categories, so that I can update them up to date.	Owner
E02	SM10	As the owner, I want to remove service categories, so that I can remove categories that are no longer available.	Owner
E02	SM11	As a customer, I want to see the list of services in the cart, so	Customer

		that I can recheck the items I have selected.	
E02	SM12	As the owner, I want to create a cart, so that it would be easier for the customers to finalize their appointment.	Owner

E02	SM13	As the owner, I want to update the cart with each selected service, so that customers can see the total services they have already selected.	Owner
E02	SM14	As a customer, I want to remove services from the cart, so that I can remove the unwanted services that I have selected before.	Customer
E03	PM1	As an admin, I want to create new packages so that I can offer bundled services to customers.	Owner
E03	PM2	As a receptionist, I want to view available packages so that I can explain them to customers.	Receptionist
E03	PM3	As a customer, I want to view package details so that I understand what services are included.	Customer
E03	PM4	As a staff member, I want to view assigned packages so that I know	Staff Member

		which services to deliver.	
--	--	----------------------------	--

E03	PM5	As the owner, I want to introduce seasonal packages (Christmas, Halloween, New Year) so that I can attract more customers during special occasions.	Owner
E03	PM6	As an owner, I want to create bridal packages so that brides can get complete beauty services in one offer.	Owner
E03	PM7	As an owner, I want to update seasonal, bridal, and kids' packages so that prices and services stay up to date.	Owner
E03	PM8	As a staff member, I want to view seasonal, bridal, and kids' packages so that I can prepare services properly.	Staff Member
E03	PM9	As a receptionist, I want to view special packages so that I can promote them to customers.	Receptionist

E03	PM10	As a customer, I want to browse seasonal packages so that I can choose offers during festival.	Customer
E03	PM11	As the owner, I want to add a selected package to the cart, so that customers can finalize	Owner

		their appointment through it.	
E04	APM1	As a customer, I want to book an appointment online by selecting a service or package, date, time So that I can easily reserve a slot without visiting the salon.	Customer
E04	APM2	As a customer, I want to view my upcoming and past appointments, So that I can keep track of my salon visits.	Customer
E04	APM3	As a customer, I want to reschedule or update my appointment, So that I can change the time or date if I'm unavailable.	Customer
E04	APM4	As a customer, I want to cancel my appointment, So that I can free the slot if I cannot attend.	Owner

E04	APM5	As the owner, I want to view and manage all customer appointments, So that I can organize the salon schedule efficiently.	Owner
E04	APM6	As a customer, I want to make a payment for my appointment online,	Customer

		So that I can confirm my booking in advance.	
E04	APM7	As a customer, I want to view my payment history, So that I can track how much I have paid for salon services.	Customer
E04	APM8	As a reception, I want to update payment status (Paid / Pending / Refunded), So that I can manage salon finances accurately.	Receptionist

E05	FM1	As a customer, I want to write detailed comments along with my ratings, so that I can provide context and specific feedback about my experience	Customer
E05	FM2	As a customer, I want to select a specific staff member and rate their service performance, so that I can share my experience and help other customers make informed decisions manually about the service details	Customer
E05	FM3	As a customer, I want to rate different service categories separately, so that my feedback is specific and helpful for others looking for particular services	Customer

E05	FM4	As a customer, I want to edit submitted feedback, so that I can update my review if my opinion changes or I make a mistake	Customer
E05	FM5	As an admin, I want to view the feedback .So that I can get a idea about my salon services.	Owner

E05	FM6	As an admin, I want to view ratings across staff and service categories, so that I can make decisions to improve salon operations	Owner
E05	FM7	As a staff member, I want to view my ratings and feedback organized by service category, so that I can identify my strengths and areas for improvement	Staff Member
E06	SRM1	As a customer, I want to clearly identify the styles that match my face features and skin tone so that I can decide a suitable style quickly.	Customer
E06	SRM2	As a customer, I want to know which styles best fit my facial features and complexion so that I can select the right look for me.	Customer

E06	SRM3	As an admin, I want to add a simple Style Recommendation System to the salon system so that customers can easily choose suitable Service they need.	Owner
E06	SRM4	As a staff member, I want customers to use the style recommendation system before appointments so that they can come up with a clear idea of what they want.	Staff Member
E06	SRM5	As a staff member, I want the system to recommend styles based on professional rules so that customers receive suitable suggestions for them	Staff Member

6. Initial Product Backlog

1. User Management

User Story ID	Remarks	Estimated story points	Estimated hours	Priority (High / Medium / Low)
UM1	Customer account registration	5	8	High
UM2	Customer login	3	5	High
UM6	Owner creates staff & receptionist accounts	5	8	High
UM7	Owner login	3	5	High
UM8	Owner assigns roles to users	5	8	High
UM11	Role-based access control	5	8	High
UM15	Receptionist login	3	5	High
UM20	Staff Member login	3	5	High
UM14	Owner logout	1	2	Medium
UM3	Customer views profile	2	3	Medium

UM4	Customer updates profile	3	4	Medium
UM9	Owner views all users	3	5	Medium
UM10	Owner activates/deactivates users	3	5	Medium
UM12	Owner searches users	3	4	Medium
UM16	Receptionist views profile	2	3	Medium
UM17	Receptionist updates profile	3	4	Medium
UM18	Receptionist views staff roles & availability	3	5	Medium
UM21	Staff views profile	2	3	Medium
UM22	Staff updates profile	3	4	Medium
UM23	Staff changes password	3	4	Medium
UM5	Customer reset password	2	3	Low
UM13	Owner views user activity status	2	3	Low
UM19	Receptionist logout	1	2	Low
UM24	Staff logout	1	2	Low

2. Service Management

User Story ID	Remarks	Estimated story points	Estimated hours	Priority (High / Medium / Low)
SM8	Create Service Categories	8	8-9	High
SM1	View Service Categories	3	6-8	High
SM3	Create New Services	8	10-11	High
SM2	View Service Details	5	8-9	High

SM6	View Service lists in each category	5	8-9	Medium
SM4	Update Existing Services	5	9-10	Medium
SM12	Create a Cart	5	8-9	Medium
SM7	Add services to the cart	3	6-7	Medium
SM13	Update the Cart	5	6-7	Medium
SM14	Remove Services from the Cart	3	4-5	Medium
SM11	View Service List in Cart	2	6-7	Low
SM5	Delete Services	3	4-6	Low
SM9	Update Service Categories	3	8-9	Low
SM10	Delete Service Categories	3	4-6	Low

3. Package Management

User Story ID	Remarks	Estimated story points	Estimated hours	Priority (High / Medium / Low)
PM1	Core functionality; allows adding new packages with all details	5	30-32hrs	High

PM2	Needed for customer interaction; simple listing and search	3	16-18hrs	High
PM3	Show price, services, duration; improves UX	2	10-12hrs	High
PM4	Helps staff manage workload and schedule	2	10-12hrs	Medium
PM5	Help increase sales during festivals.	5	28-30hrs	High
PM6	High demand premium service.	5	30hrs	High
PM7	Keeps pricing and services updated.	4	20hrs	Medium
PM8	Helps staff understand requirements	2	10-12hrs	Medium
PM9	Improve marketing and sales	3	15hrs	Medium

PM10	Improve customer experience.	2	10hrs	Medium
------	------------------------------	---	-------	--------

4. Appointment and Payment Management

User Story ID	Remarks	Estimated Story Points	Estimated Hours	Priority
APM1	Customers can book appointments by selecting service, date, and time	8	16 hrs	High
APM2	Customer can view upcoming and past appointments	5	10 hrs	High
APM3	Customer can reschedule or update appointment details	8	14 hrs	High
APM4	Customer can cancel appointments	5	8 hrs	High
APM5	Owner can view and manage all appointments	8	15 hrs	High
APM6	Customer can make online payment for appointment	13	22 hrs	High
APM7	Customer can view payment history	5	9 hrs	Medium
APM8	Reception can update payment status (Paid / Pending / Refunded)	5	10 hrs	Medium

5. Feedback and Rating System

User Story ID	Remarks	Estimated story points	Estimated hours	Priority (High / Medium / Low)
FM1	Create comments and ratings	3	15	High
FM2	Select a specific staff member	1	2	Low
FM3	Select specific service	1	2	Low
FM4	Edit submitted feed back	2	4	Medium
FM5	Delete inappropriate or fake reviews	8	15	High
FM6	View ratings	8	15	High
FM7	Staff members View feedback according to service they provided	5	10	High

6. Style Recommendation System Management

User Story ID	Remarks	Estimated story points	Estimated hours	Priority (High / Medium / Low)
SRM1	Input form for face shape, skin tone, gender	5	8	High

SRM2	Rule mapping and show recommended styles with images	5	8	High
SRM3	Edit form for face shape, skin tone, gender ect	8	14	High
SRM4	Deleted recommendation	3	5	Medium
SRM5	Save generated style recommendations	8	12	High

7. Definition of Done (DoD)

- All functional requirements and acceptance criteria are fully implemented and verified.
- The feature works correctly for the relevant user role (Customer, Owner, Staff, Receptionist).
- Input validation, error handling, and system responses work as expected.
- Role-based access control is correctly implemented.
- Data is stored, retrieved, updated, and deleted accurately without data loss.
- Code follows the agreed coding standards and is properly organized.
- Required testing (unit/integration/system) is completed and passed.
- No malfunctions or high-severity defects remain.
- Relevant documentation and backlog status are updated.
- The feature is ready for deployment.

8. Sprint 1 Preview

Epic 1-User management

User Story ID	User Story / Description	Priority	Sprint	Tasks	Status	Estimated Time (hrs)
UM1	As a customer, I want to create an account using my basic details so that I can book and manage appointments.	High	1	- Design registration form - Implement backend registration logic - Validate input fields - Test registration flow	To Do	8
UM2	As a Customer, I want to log in to the system using my credentials, so that I can access features relevant to my role.	High	1	- Create login form - Implement authentication logic - Handle invalid credentials - Test login	To Do	5

UM6	As the owner, I want to create staff and receptionist accounts so that employees can use the system.	High	1	- Create admin interface for user creation - Implement backend logic for staff/receptionist accounts - Test account creation	To Do	8
UM7	As the Owner, I want to log in to the system using my credentials, so that I	High	1	- Create owner login page	To Do	5
	can access administrative features.			- Implement authentication - Test admin access		
UM8	As the owner, I want to assign roles (staff, receptionist) to users so that access is controlled properly.	High	1	- Implement role assignment logic - Connect role info with user accounts- Test role enforcement	To Do	8
UM11	As the owner, I want each role to access only permitted features so that sensitive data is protected.	High	1	- Implement role -based access control - Test access restrictions per role	To Do	8
UM15	As a Receptionist, I want to log in to the system using my credentials, so that I can access features relevant to my role.	High	1	- Create receptionist login page - Implement authentication - Test receptionist login	To Do	5

UM20	As a staff member, I want to log in to the system using my credentials, so that I can access features relevant to my role.	High	1	- Create staff login page - Implement authentication- Test staff login	To Do	5
------	--	------	---	---	-------	---

Epic 2-Service management

Epic ID	Activity	Task Description	Sprint	Estimated Hours	Status
E02	Requirements	Finalizing the user stories and the acceptance criteria for SM8, SM1, SM3, SM2, SM6 and SM4	Sprint 1	2 – 3	To Do
E02	Design	Designing the database schema (ER/EER Diagram) for the service categories and services.	Sprint 1	3 -4	To Do
E02	UI Development	Create HTML/CSS forms for service categories and services	Sprint 1	8 – 10	To Do
E02	Backend Coding	Implement the POST (create) and GET (read) requests for service categories and POST (create), GET (read) and PUT (update) requests for services using Java – Spring Boot.	Sprint 1	15 – 20	To Do
E02	Validation	Implement validations accordingly. (e.g., service prices must be > 0)	Sprint 1	6 – 8	To Do
E02	Testing	Unit testing on the frontend, database connections and the backend	Sprint 1	5 - 6	To Do

Epic3 –Package Management

Epic ID	Activity	Task Description	Sprint	Estimated Hours	Status
E03	Requirements	Finalize user stories and acceptance criteria for creating, and viewing packages	Sprint 1	2 – 3	To Do
E03	Design	Design the database scheme (ER/EER Diagram) for packages, services, and package-service relationships	Sprint 1	3 – 4	To Do
E03	UI Development	Create HTML/CSS forms for adding, viewing packages	Sprint 1	8 – 10	To Do
E03	Backend Coding	Implement POST (create), and GET (read) requests for packages using Java – Spring Boot	Sprint 1	15 – 20	To Do
E03	Validation	Implement validations (e.g., package price > 0, package name not empty, services must exist)	Sprint 1	6 – 8	To Do
E03	Testing	Unit testing for frontend forms, backend controllers, and database connections	Sprint 1	5 – 6	To Do

Epic 4: Appointment and Booking Management

Epic ID	Activity	Task Description	Sprint	Estimated Hours	Status
E04	Requirements	Analyze appointment booking requirements (APM1–APM5)	Sprint 1	4 hrs	Completed
E04	Design	Design database schema (Appointment, Service tables)	Sprint 1	4 hrs	Completed
E04	Design	Create UI wireframes for booking & dashboard	Sprint 1	3 hrs	Completed
E04	UI Development	Develop appointment booking page (service, date, time)	Sprint 1	6 hrs	In Progress
E04	UI Development	Develop appointment list page (Upcoming & Past)	Sprint 1	5 hrs	To Do
E04	UI Development	Develop reschedule & cancel buttons	Sprint 1	4 hrs	To Do
E04	UI Development	Develop owner dashboard UI	Sprint 1	5 hrs	To Do
E04	Backend Coding	Implement booking controller & service layer	Sprint 1	6 hrs	In Progress
E04	Backend Coding	Implement fetch appointments functionality	Sprint 1	4 hrs	To Do
E04	Backend Coding	Implement update & cancel appointment logic	Sprint 1	5 hrs	To Do
E04	Backend Coding	Implement owner appointment management logic	Sprint 1	4 hrs	To Do
E04	Validation	Validate time slot availability	Sprint 1	3 hrs	To Do
E04	Validation	Validate reschedule & cancellation rules	Sprint 1	3 hrs	To Do
E04	Testing	Unit testing for booking & update functions	Sprint 1	4 hrs	To Do
E04	Testing	Integration testing (UI + Backend + Database)	Sprint 1	4 hrs	To Do
E04	Testing	Fix bugs and retest	Sprint 1	3 hrs	To Do

Epic5-Feedback and Rating management system

Epic ID	Activity	Task Description	Sprint	Estimated Hours	Status
E05	Requirements	Finalize user stories and acceptance criteria for FM1,FM4,FM5 feedback creation, and view features	Sprint 1	2–3	To Do
E05	Design	Design feedback data structure (id, user, comment, date) using file/database schema	Sprint 1	3–4	To Do
E05	UI Development	Create feedback form UI with text area and submit button	Sprint 1	6–8	To Do
E05	Backend Coding	Implement function to save feedback data and connect form to backend	Sprint 1	10–12	To Do
E05	Validation	Validate input fields (prevent empty comments)	Sprint 1	4–5	To Do
E05	Feature Enhancement	Implement edit feedback feature (load, update, confirmation message)	Sprint 1	6–8	To Do
E05	Feature Enhancement	Implement delete feedback feature with confirmation popup and refresh list	Sprint 1	5–7	To Do
E05	Testing	Test feedback submission, edit, and delete functions with sample data	Sprint 1	5–6	To Do

Epic 6-Style Recommendation management

Epic ID	Activity	Task Description	Sprint	Estimated Hours	Status
E06	Requirements	Finalize user stories and acceptance criteria for style recommendation inputs and outputs for SRM1,SRM2	Sprint 1	2–3	To Do
E06	Design	Prepare style data and design rule-based mapping table for recommendations	Sprint 1	4–6	To Do
E06	UI Development	Create UI form for selecting face shape, skin tone, and gender	Sprint 1	6–8	To Do
E06	UI Development	Add submit / get recommendation button and display area for results	Sprint 1	3–4	To Do
E06	Backend Coding	Implement logic to store inputs and match them with rule-based mapping	Sprint 1	12–15	To Do
E06	Validation	Validate that all selections are made before processing	Sprint 1	3–4	To Do
E06	Feature Implementation	Display recommended styles with style name, image, and description	Sprint 1	6–8	To Do
E06	Testing	Test recommendation accuracy for different combinations of inputs	Sprint 1	5–6	To Do
